

Fort St. George, May 27, 1933 (P.O. No. 291, Public (Elections)).

The rules for the preparation, revision and publication of electoral rolls for the several constituencies of the Madras Legislative Assembly and the Madras Legislative Council provide for an annual revision of the electoral rolls. The Government have issued orders separately for the revision of the rolls for 1933 and have fixed the 3rd July 1933 as the date by reference to which the rolls should be revised. The revision will consist in the preparation of a list of additions and corrections to and omissions from the final rolls for 1932.

2. For the convenience of the public extracts of the rules relating to the electoral qualifications both in respect of the Madras Legislative Assembly and the Madras Legislative Council will be published in the Fort St. George Gazette. Persons who possess the qualifications on "the prescribed date", viz., 3rd July 1933, are alone eligible for inclusion in the rolls. Persons who are qualified to be voters but whose names have not been included in the final rolls for 1932 and persons the entries relating to whose names require correction as to the manner or place of entry are hereby called upon to see that their names are included in the respective rolls or their entries corrected.

3. Any person who claims to be included in the rolls of the General, Mohammedan, Indian Christian, European or Anglo-Indian constituency of the Assembly by virtue of the undermentioned qualifications should present an application in the prescribed form in person to the Registration Officer concerned or to an officer subordinate to him not lower in rank than a Revenue Inspector:—

- (1) Occupies as sole tenant throughout the previous financial year of a house in respect of which property-tax or house-tax has been paid for both the half years of that year—[paragraph 2 (c) of Part II of the Sixth Schedule to the Government of India Act, 1935].

- (4) Being the guardian of a minor who by virtue of the provisions of paragraphs 1 to 4 of Part II of the Sixth Schedule to the Act would have been entitled to be included in the electoral roll for that constituency if he were of full age—[paragraph 5 of Part II of the Sixth Schedule to the Act].

- (6) Being the wife of a retired, pensioned, or discharged officer, non-commissioned officer or soldier of His Majesty's regular Military forces—[paragraph 9 (a) of Part II of the Sixth Schedule to the Act].

Personal presentation of application is not however necessary in the following cases:—

- (a) It is not required in the case of a person who claims to be enrolled by virtue of being a literate and who proves to the satisfaction of the Registration Officer or an officer of the Revenue Department not lower in rank than a Revenue Inspector that he possesses a completed Secondary School-Leaving Certificate issued under the authority of the Government of Madras or a qualification declared equivalent thereto. In this case it is enough if an application is sent by post, messenger or agent with necessary evidence as to the residence of the applicant.
- (b) In the case of a woman who according to the custom of the family or community to which she belongs does not usually appear in public, her husband or other relative may present the application signed by her. Provisions relating to Entrers' quota.

(c) The film to which the directions relate is registered or treated for the purpose of certain quota, and

(d) The Board are satisfied that the price paid or payable by the owner in respect of his acquisition of the film for distribution in the United Kingdom is not less than thirty thousand pounds.

include a direction that the length of the film shall, for the purpose of determining whether any relevant quota conditions have been fulfilled by that owner in any relevant quota period, be taken to be twice its registered length, or

(d) in any other case, include a direction that the length of the film shall, for the said purpose, be taken to be its registered length.

Provided that, if the total length of the film which, by virtue of any direction under this section, is treated as to be deemed for any purpose to have acquired in Great Britain quota period for distribution in Great Britain exceeds half the total length of films registered as British long films which, apart from those classed as, or treated as having acquired for distribution in Great Britain in order to fulfil the relevant quota conditions in respect of that period, the first-mentioned total length shall be deemed to be reduced by the amount of the excess.

(2) If, at any time after giving any directions under this section, the Board of Trade discover that they were made on any of the material facts by reference to which their decision to give the directions was made, or the Board may revoke the directions and when any such directions are revoked, they shall be deemed never to have been given.

(3) It shall be the duty of the exhibitor of the film to which the directions relate, or of the exhibitor of the film to which the directions relate, to cause to be entered in the register of exhibitors (b) of that section, the relevant facts which are in, or in relation to, the film, for the purpose of determining whether the words "acquired in Great Britain" have been fulfilled by the owner of the film, and in relation to the words "acquired in Great Britain" have been fulfilled by the owner of the film, and in relation to the words "acquired in Great Britain" have been fulfilled by the owner of the film.

4 (1) Upon application made, with respect to a film to which this Act applies, by a person who has, in any relevant quota period, acquired that film for distribution in Great Britain, or who proposes to acquire it, in any such period for distribution in Great Britain, the Board of Trade, if satisfied that the film is a long film and that it has not been exhibited in the public in Great Britain within the twelve months immediately preceding the date on which the application was made, may, if they think fit, direct that, subject to the fulfilment of the conditions set out in the following subsection, the fact that he has, before the end of the year beginning with the said date, acquired the film for distribution in Great Britain shall be the basis for determining whether that owner has fulfilled any quota conditions, he is discharged.

(2) The conditions subject to which any directions given under this section as respect of a film shall have effect are that the film must not, in the year beginning with the date of the application upon which the directions are given—

(a) be exhibited by any other owner to exhibitors in Great Britain for public exhibition therein, or

(b) be exhibited to the public at more than twelve theatres in Great Britain or at more than six theatres in the administrative county of London, or

(c) be exhibited to the public at more than one theatre in Great Britain on the same day;

and if the owner claims the film, after the end of that year, to be exhibited for exhibition in the public at a theatre in Great Britain, then, for the purpose of determining whether any quota conditions have been fulfilled by him, the film shall (without prejudice to any previous effect of the directions) be treated as if, on the date when he first so exhibited it, he had acquired it for distribution in Great Britain.

5 Upon application made to them in that behalf, the Board of Trade, if they think fit, may, in relation to any relevant quota period, designate any one or more theatres as a specified theatres for the purpose of limiting the quota conditions in respect of that period as relating to long films, and if, in that period, not more than one of those theatres has acquired, for distribution in Great Britain, more than three films which are registered as long films (other than films which are registered as short films) in that period, the preceding sentence of this Act shall, so far as regards the fulfilment of the quota conditions in respect of that period in relation to long films, apply to those theatres as if they constituted together a single theatre.

Provided that the preceding provisions of this section shall, in relation to the relevant quota period beginning with the first day of April next commencing on thirty-first, have effect as if the words "acquired in Great Britain" were substituted for the word "acquired" in the preceding sentence.

6 Where, for the purpose of any of the preceding provisions of this Act, it is material to determine what films a person has acquired in any relevant quota period, a film which he has, in that period, acquired for distribution in Great Britain, but which has been registered as one subsequent relevant quota period, shall be deemed to have been acquired by him in the relevant quota period in which the film was registered and not in the relevant quota period in which he actually so acquired it.

#### PART II

##### Restrictions on Public Showing and Admission to Cinemas or Theatres

17. (1) No order shall, in the period beginning at the commencement of this Act and ending with the thirtieth day of September next next hundred and thirty-eight, impose the giving by an exhibitor (whether for a consideration or not, and whether orally or in writing) of any such undertaking as would, if it were legally binding on the exhibitor, impose on him as exhibitor, either actual or contingent, to take delivery of a film to which this Act applies, for public exhibition at a theatre in Great Britain, before a film which had not been trade-shown at the time of his giving the undertaking.

Provided that this subsection shall not operate so as to restrict—

(a) in relation to any serial film or series of films, the making, at a time when at least three parts of the film or series have been trade-shown, of an agreement for the public exhibition of any part thereof; or

(b) the making, in relation to any one film, of an agreement for the exhibition of that film at one theatre only and as a number of successive days, or

(c) the making, in relation to any one film, of an agreement for the exhibition of that film at not more than three days and at not more than three theatres.

(2) Where, in relation to any one film, there have been made, at a time when that film has not been trade-shown, several agreements the purpose of which taken together is to procure for the public exhibition of that film at Great Britain either at more than one theatre or otherwise than on consecutive days, the benefit of paragraph (1) of the proviso to the preceding subsection shall not extend to any of those agreements, and where, in relation to any one film, there have been made, at a time when

that film has not been trade-shown, several agreements the purpose of which taken together is to procure for the public exhibition of that film at Great Britain either at more than three days or at more than three theatres, the benefit of paragraph (1) of the said proviso shall not extend in any of those agreements.

In relation to any film being a part of a serial film or series of films, the preceding subsection of this subsection shall have effect as if, in those provisions, for the words "where that film has not been trade-shown," in each place where those words occur, there were substituted the words "before three parts of that serial film or series of films have been trade-shown."

(3) No order shall, in the period beginning at the commencement of this Act and ending with the thirtieth day of September next next hundred and thirty-eight, impose the giving by an exhibitor (whether for a consideration or not, and whether orally or in writing) of any such undertaking as would, if it were legally binding on the exhibitor, impose on him as exhibitor, either actual or contingent, to take delivery of a film to which this Act applies for public exhibition at a theatre in Great Britain at a date later than six months after the date on which he gives the undertaking.

Provided that, in relation to any serial film or series of films, that section shall not operate so as to restrict the making of an agreement in so far as it provides for any part of the film or series being exhibited after three parts thereof have been exhibited to the public at a theatre in Great Britain.

(b) in the case of an agreement made before the end of March next next hundred and forty-two, it purports to impose on any exhibitor an obligation, either actual or contingent, to take delivery of a film to which this Act applies for public exhibition at a theatre in Great Britain at a date later than six months after the date on which the agreement is made.

Provided that the preceding provisions of this subsection shall not apply in relation to any agreement the making of which is necessitated by virtue of the proviso to subsection (1) of section fourteen of this Act, or the proviso to section eighteen of this Act, or the one or the other.

(2) Any agreement made before the commencement of this Act (whether in Great Britain or elsewhere) which, if made after the commencement of this Act, would be void under the preceding subsection, shall, if and so far as it relates to the delivery after the end of September next next hundred and thirty-eight, for public exhibition in Great Britain, of a film to which this Act applies, cease to have effect at the end of that month.

20. A trader shall, whenever requested to do so by a person entitled to that behalf by the Board of Trade produce to that person such books or other documents, and furnish to that person such other information, with respect to any film delivered or to be delivered for sale to any exhibitor in Great Britain for public exhibition, as being a film to which this Act applies, as the Board may require for the purpose of the enforcement of this Part of this Act.

#### PART III

21. (1) No order shall, in the period beginning with the commencement of this Act and ending with the thirtieth day of September next next hundred and forty-two, deliver to an exhibitor in Great Britain for public exhibition, being a film to which this Act applies, unless, at the time of the

delivery, the film is a registered film; and no person shall, in the next period, exhibit to the public, at a theatre or dance hall, any film in which this Act applies, being a film which he knows, or ought to have known, was in a registered film.

Provided that this subsection shall not restrict the delivery or exhibition, in pursuance of a valid agreement for its exhibition at one theatre only as a member of an association, of a film in respect of which a professional application for registration has been made, if the film is made-known within six weeks from the date on which the application was made, and shall not restrict—

(a) the delivery or exhibition of any film which has been exhibited to the public before the commencement of this Act, other than a film which was first exhibited after the end of September nineteen hundred and twenty-two; and is a film in which the Act of 1917 applies; or

(b) the delivery or exhibition, in pursuance of valid agreements for its exhibition on not more than three days and at not more than three theatres, of a film which, at the time of the delivery or exhibition, had not been trade-shown.

(2) If any person delivers a film in contravention of this section he shall be liable on summary conviction to a fine not exceeding two hundred and fifty pounds; and if any person exhibits a film in contravention of this section he shall be liable on summary conviction to a fine not exceeding twenty pounds for every day on which he exhibits the film.

23. (1) Upon application duly made to them, not later than the end of September nineteen hundred and forty-two, for the registration of a film in which this Act applies, the Board of Trade shall, subject to the following provisions of this Part of this Act, register the film under this Part of this Act as a register to be kept by the Board for the purpose.

(2) The register shall be so kept as to record, in relation to each film registered therein,—

(b) such other particulars with respect to the film as are required by the following provision of this Part of this Act to be entered in the register.

(3) On the registration of a film under this Part of this Act, the Board of Trade shall issue to the person on whose application the film is registered a certificate of registration, specifying all the particulars which, at the time of the issue of the certificate, are recorded in the register with respect to that film.

(4) As soon as may be after the end of the week beginning at the commencement of this Act and at such subsequent times, the Board of Trade shall publish in the Board of Trade Journal a list of films registered in that week.

(5) The register shall, at all reasonable times, be open to inspection by any person at the office of the Board of Trade, on payment of the prescribed fee, and any person inspecting the register may take copies of any entries therein.

(6) The Board of Trade shall, on demand made in that behalf by any person and on payment of the prescribed fee, furnish that person with a copy of the entry in the register relating to any particular film, being a copy verified to be true by the officer of the Board of Trade having the custody of the register.

24. (1) Every application for the registration of a film shall be made in writing to the officer of the film, by a person who has acquired his knowledge in Great Britain, and shall be accompanied by the prescribed fee.

(2) No such application as aforesaid shall be entertained unless the film which is the subject of the application has been trade-shown within the last twelve days immediately preceding the date on which the application is made:

Provided that—

(a) a professional application may be made before the film has been trade-shown, and in that case, if the film is trade-shown within six weeks after the date on which the professional application

is made, the professional application shall thereupon be treated as if it had been made within fourteen days after the film was trade-shown; and

(b) an application made, more than fourteen days after the film was trade-shown, may be entertained by the Board of Trade if they are satisfied that the delay was due to special circumstances and was not intentional.

- No employed person can give up by contract or agreement his rights under the Act.

Definition of wages.

3. "Wages" means all remuneration payable to an employed person on the fulfilment of his contract of employment.

It includes bonus and any sum payable for work of a proper nature of discharge.

It excludes—

(a) the value of accommodation, supply of light, water, medical attendance, or other service or of any service rendered by the Central Government;

(b) the employer's contribution to a pension or provident fund;

(c) travelling allowance or transport or other special expenses entailed by the employment;

5. Wages shall be paid for the payment of wages at intervals not exceeding one month.

6. Wages shall be paid on a working day within seven days of the end of the wage-period for which they are due if 1,000 or more persons are employed.

The wages of a person discharged shall be paid not later than the second working day after his discharge.

7. Payments in kind are prohibited.

*First and definition.*

8. No deduction shall be made from wages except those authorized under the Act (see paragraphs 9-15 below).

9. (1) Fines can be imposed only for such acts and omissions as the employer may, with the previous approval of the Inspector, specify by a notice displayed at or near the main entrance of the factory and after giving the employed person an opportunity for explanation.

(2) Fines—

(a) shall not exceed half-a-crown in the aggregate; (b) shall not be recovered by instalments, or later than sixty days of the date of imposition;

(c) shall be recorded in a register and applied to such purposes beneficial to the employed persons as approved by the Inspector;

(d) shall not be imposed on a child.

10. (a) Deductions for absence from duty can be made only on account of the absence of the employed person at times when he should be working and such deduction must not exceed an amount which is at the time proportioned to his wages for the wage-period, as the time he was absent in that period is to the total time he should have been at work.

(b) If two or more employed persons, acting in concert, absent themselves without reasonable cause, without due notice, the deduction for absence can include wages for eight days in lieu of notice, but—

(i) no deduction for breaking a payment can be made from a person under 15 or a woman,

(ii) there must be a previous notice in writing which for part of the contract of employment, requiring that a specific period of notice be submitted by every worker exceeding 15 days or the period of notice when the employer has to give to discharge a worker, must be given to the employer and that wages may be deducted in lieu of such notice.

(3) The above provision must be displayed at or near the main entrance of the factory.

11. No deduction at all of nature can be made under a notice that this deduction is to be made two weeks posted at or near the main entrance of the factory.

12. No deduction must exceed the wages of the employed person for the period for which the notice is given of leaving employment, or less than the notice he should give under his contract.

13. Deductions can be made for damage to or loss of goods expressly entrusted to an employed person or for loss of money for which he is required to account, where such damage or loss is due to his neglect or default.

Such deduction must not exceed the amount of the damage or loss caused and can be made only after giving the employed person an opportunity for explanation.

14. Deductions can be made equivalent to the value thereof, for house accommodation, recreation, or services (other than food and raw materials supplied to the employer) provided these are accepted by the employed person as a part of the terms of his employment and have in the case of recreation and services been authorized by order of the Central Government.

15. (a) Deductions can be made for the recovery of advances, or for adjustment of overpayment of wages.

(b) Advances made before the employment begins can only be recovered from the first payment of wages for a complete wage-period but no recovery can be made of advances given for travelling expenses before employment begins.

(c) Advances of interest-free wages can be made at the proprietor's discretion during employment.

16. Deductions can be made for subscription to and for payment of advances from any recognized provident fund.

*Completion of deduction or delay.*

19. (1) Where irregular deductions are made from wages, or delay in payment takes place, an employed person may make an application to the prescribed authority within six months of the date of completion of the deduction or the date of the payment. An application delayed beyond this period may be rejected unless sufficient cause for the delay is shown.

(2) Any legal proceedings, official of a registered trade union, Inspector under the Act, or other person acting with the permission of the Authority can make the complaint on behalf of an employed person.

21. An appeal in the prescribed form against a direction made by the Authority may be preferred within 30 days in Madras, Bombay, Calcutta, in the Court of Small Causes and elsewhere in the District Court—

(a) by the proprietor of the total amount directed to be paid exceeds Rs. 300,

(b) by an employed person, if the total amount of wages withheld from him or his co-workers, exceeds Rs. 50,

*First W. Green, Nov 24, 1923  
(G.O. No. 1223, Madras)*

No. 427.

In answer of the queries received by paragraph 61 of sub-section (2) of section 211 of the Government of India Act, 1920, His Excellency the Governor is hereby pleased to issue the following amendment to the special rules published with Benchmarks Department Notification No. 402, dated 11th June 1922 at page 1187 of Part I of the First B. Group Gazette, dated 22nd June 1922—

*AMENDMENT.*

In rule (2) of the said rules, for the expression "for the period from 1st July 1922 to 31st June 1923" the following expression shall be substituted, namely:—

"for a period of one year and nine months from the 1st July 1922."

Fort St. George, May 30, 1935 (G.O. No. 1384, Development).

No. 488.—

Mr. D. N. Srinivas, I.C.S., who was appointed in G.O. No. 360, Development, dated 21st April 1933, to arbitrate on the question of wages at the Papanasam Mills in pursuance of an agreement entered into between Messrs. A. & F. Harvey on behalf of the Madras Mills and Mr. B. H. Varadarajulu Nayudu on behalf of the Madras and Papanasam Labour Union, has submitted his award.

2. The award which is appended to this order is published for general information.

#### AWARD.

In G.O. No. 360, Development, dated 21st April 1933, and in accordance with the agreement entered into between Messrs. A. & F. Harvey on the one side and Mr. Varadarajulu Nayudu, on the other side, on behalf of the Madras and Papanasam Labour Union, I have been appointed Arbitrator to give an award on the question of the wages at the Madras Mills, Papanasam.

3. The following issues were accepted:—

- I. Is the cost of living for workers lower at Papanasam than at Madras?
- II. If the answer to I is in the affirmative, is that in itself any justification for lower wages at Papanasam?
- III. Are the wages at Papanasam including the increase sanctioned in the mills notice of 24th December 1937 reasonable, with regard to—
  - (a) the wages of workers in various kinds of employment in other parts of the Presidency; and
  - (b) the needs of the workers and the desirability of maintaining a proper standard of living for the workers?
- IV. Have the Papanasam Mills natural or mechanical advantages which render the cost of production less?
- V. If this is so, does it entitle the workers to higher wages than they would otherwise secure?
- VI. Can the Papanasam Mills afford to pay higher wages?
- VII. Is their position in this respect temporary or is it of long duration?
- VIII. If any increase is desirable, what form should it take?

3. On the first issue, Messrs. A. & F. Harvey have filed statement I, giving for a family of 4.65 persons (which was found to be the average number the cost of living at Madras and Vikramasingapuram, for a period of five months, November 1937 to March 1938. (The bulk of the workers live at Vikramasingapuram and Vikramasingapuram can be substituted for Papanasam or Ambalambalam throughout.) This statement was compiled by one of the writers of the firm from careful enquiries made from about 60 workmen. It shows the cost of living at Vikramasingapuram as 87-36 per cent, 87-05 per cent, 90-15 per cent, 92-45 per cent, 75-91 per cent of the cost of living at Madras. I believe this statement to be as near as may be correct for comparative purposes. Regarding the two main items of family expenditure, viz., rent and household, it was checked during the enquiry. The average household at Madras as given in the statement is Rs. 3-6-5, at Vikramasingapuram, Rs. 1-12-7. During enquiries at Madras, I found the mill workers paying a rent of Rs. 4-8-0, Rs. 4, Rs. 3-8-0, Rs. 3-6-0, Rs. 3, Rs. 2-12-0, and in a few cases, Rs. 2. At Vikramasingapuram, the first workers questioned by me independently and without prior notice, were either living in their own houses or were paying rents of Rs. 1 per person. Later, I was taken to several houses where the rents were alleged to be Rs. 4 (these were for fairly good houses with four small rooms and an attached, No. 3 (the survey subsequently stated that the correct figure was Rs. 2), and Rs. 9-8-0. I believe the surveys given in the later statements were biased. Official enquiries made earlier in the year had ascertained that the rents at Vikramasingapuram were Rs. 1 per person for a single room and Rs. 2 for double rooms. This figure, I believe to be correct. The price of rice is certainly lower at Vikramasingapuram as one would expect in a good paddy-growing area. There are no great variations in the other items, but the difference in rent and rice convinces me that the cost of living for a worker is approximately Rs. 4 lower at Vikramasingapuram than at Madras.

Issue II.—On the second issue, I find that the lower cost of living at Vikramasingapuram is a justification for lower wages there. I am convinced that the cost of living is one of the essential elements in determining wages. Any other conclusion seems to me impossible. It would upset the existing organization of society and industry. If it were held that the same employer must pay the same wages for the same work in a city and in a rural area, there would no longer be any reason for locating factories away from

large towns. They would all concentrate at places where markets were easiest and there would be an excess of congestion in cities. It has been argued that "in other occupations of life it is not the place that determines the wage but the work" and that "whether it be in Ganjam or Godavari, or Tinsivelly or Calcuttola, a hospital compounder or an engineering draughtsman is paid the same salary". I do not believe that this argument from Government salaries is sound. Government salaries are fixed on a balance of practical considerations, of which seniority is the chief one. The amount of work done is not a determining factor. The Collector of Chittoor, if of equal seniority, receives the same pay as the Collector of Madras.

Incidentally I would point out that, in certain cases, the wages at Papanasam are the same, or even higher than those paid at Madras. This is partly due to the fact that one of the former managers had been very keen on compensating wages and commission. He did not believe in the commission system and tried to introduce fixed wages as far as possible. Another reason is that at one time the management had laid down the principle that the minimum wage for adult labourers should be Rs. 15 per mensem. This resulted in the wages for adult non-technical labour being the same at both places. In some cases, for instance, machine, coolies, the higher wages paid at Amburacolum were not satisfactorily explained and seemed to be due to accident or long service. The acceptance of the principle that the same wage should be paid for the same work at both places would have resulted in a decrease of the wages at Papanasam in some instances.

Issue III (a).—On this issue, I have, during my visits to several local factories, compared the wages drawn by several kinds of labourers. I took spinners and weavers for particular consideration as they are the most numerous. After seeing these factories, I decided to eliminate all consideration of wages at Coimbatore or in North India, because my inspection of the actual wages books has shown that there is little use in relying on returns by factory owners, or even on reports by Government officials. They must be based on averages and, without a detailed examination of the wages book, it is impossible to say what the figures reported represent. I found that, in several cases, the returns submitted to my office by local factory owners give quite an incorrect idea of the actual drawings of the work-people. I consider, too, that for purposes of comparison of wages in different factories, it is the maximum that a man can draw that should be the chief consideration. The attendance is so frightfully irregular, especially in the smaller mills at Madras, that averages are useless. In one mill I found that out of about 120 workmen, only 6 earned the basic wage.

My enquiries give the following results:—

(a) For men-spinners doing night work, the maximum wages are—

*Madras Mills Company, Limited, Madras.*

	RS.	A.	P.
Basic wage	11	2	0
Production commission	4	3	0
Attendance commission	0	12	0
Bonus	1	0	0
<b>Total</b>	<b>17</b>	<b>12</b>	<b>0</b>

*Sri Hanstul Mills, Madras.*

	RS.	A.	P.
Basic wage	12	2	0
Weekly bonus	0	6	0
Night bonus	1	0	0
Commission	2	0	0
<b>Total</b>	<b>15</b>	<b>8</b>	<b>0</b>

(Rs. 15-8-0 is the figure given by the management. I checked it when I visited the factory. I was not then devoting much close attention to maxima and I am not now quite sure that the commission figures given is really the maximum obtainable by workers on the higher counts.)

*Rajah Mills, Madras.*

	RS.	A.	P.
Basic wage	12	3	0
Production commission	1	12	3
Attendance bonus	0	6	0
<b>Total</b>	<b>14</b>	<b>5</b>	<b>3</b>

*Mahalakshmi Mills, Madras.*

	Rs.	A.	P.
Basic wage	11	2	0
Commission	1	7	0
Total	12	9	0

(In justification for the lower wages paid here, it must be noted that the Mill is situated away from Madras Town and that the workmen live in adjacent villages, paying a house rent of Rs. 1 to Rs. 1-8-0. Their condition is almost rural.)

*Steam Mills, Ambasaram,*

	Rs.	A.	P.
Basic wage	9	8	0
Production commission	2	8	1
Attendance	0	11	0
Bonus	1	0	0
Total	13	11	1

It will be seen that the wages at Ambasaram are higher than those at Mahalakshmi Mills at Madras and not much lower than the Rajah Mills, Madras. In my opinion, the lower cost of living at Vikramasingapuram justifies the difference.

(3) For men-spinners doing day work and for women, the maximum wages are as follows:—

*Madras Mills Company, Limited, Madras*

	Rs.	A.	P.
Basic wage	11	2	0
Production commission	2	7	2
Attendance commission	0	6	0
Total	13	15	2

*Sh. Minakshi Mills, Madras.*

	Rs.	A.	P.
Basic wage	11	2	0
Production commission	1	7	0
Attendance commission	0	6	0
Total	12	15	0

*Rajah Mills, Madras.*

	Rs.	A.	P.
Basic wage	11	2	0
Production commission	1	4	0
Attendance commission	0	6	0
Total	12	12	0

(It has to be noted here, i.e., for Rajah Mills, that very few women are on the basic pay of Rs. 11-2-0. The beginners are started on Rs. 5 and rise by increments of about 4 annas to the maximum of Rs. 11-2-0. These increments seem to be given at the discretion of the management.)

*Mahalakshmi Mills, Madras.*

	Rs.	A.	P.
Basic wage	11	2	0
Production commission	1	2	0
Total	12	4	0

## Water Mills, Ambasamudram.

	Rs.	A.	P.
Basic wage	9	8	0
Production commission	2	2	6
Attendance commission	0	6	0
Total	12	0	8

**Loyal Mills, Kodipatti.**—Here the wages are based on an entirely different system from the other Mills in the locality and it is very difficult to make an accurate comparison of the effect of the rates given. The wages at Kodipatti are fixed, and there is no commission or attendance bonus. The basic pay for double-shifters is as follows:—

	Rs.	A.	P.
450 spindles	15	7	0
380 "	16	1	0
324 "	15	6	0

These rates apply to double-shifters doing alternate day shifts with night shifts. There are 88 men drawing the above basic pay, and the pay-sheets show that quite a substantial number earn near the basic rates. Wages of Rs. 15-1-0 or Rs. 15-6-0 are fairly common. The work done on the frames with 450 and 380 spindles requires greater skill and more continuous attention than the work done in the other Mills.

For single-shifters the basic rates are—

	Rs.	A.	P.
450 spindles, warp	10	4	0
380 " weft	10	0	0
324 " twist	9	10	0

These rates are lower than are paid in the other local Mills, but some men work on single shifts for part of the month and for part of the month on double shifts. On the whole, the basic rates here give higher wages than at Ambasamudram, but where the wages are higher the work is more exacting.

It will be seen that the wages for this class of workers at Ambasamudram are not very much lower than the wages paid in the smaller mills at Madurai. The difference is, I consider, justified by the lower cost of living near Ambasamudram.

**(iii) Reeling.**—These are paid piece-rates. The rate at the Madurai Mills is 3½ pice per reel, at the Mahalingapur Mills, Madurai, 3 pice per reel; at Papanasam 2½ pice per reel, and at Kodipatti, 2½ pice per reel of 30 counts, and 150 pice per reel of the higher counts. At the Madurai Mill and at Papanasam, the reels are driven by machinery; in the other smaller mills at Madurai by hand. The bulk of the employees are women, although some men are employed as they are required to do reeling at night. Statement C filed by the Management of the Mills shows that the wages paid at Madurai are Rs. 14-3-0. These are an average based on the number of workers and the amount earned by each woman per day. The amount earned varies with the skill of the worker, and it is one month of 26 days which I examined, some women earned as much as Rs. 19-5-9, 16-7-0, 17-11-0, and 17-0-0. A woman of average abilities and regular attendance would earn from Rs. 15 to Rs. 16. A man earns less because he is less skilful. At the Mahalingapur Mills at Madurai, there are 213 women on the reels, though the maximum they can employ in a day is 148. Good workers with regular attendance were earning between Rs. 8 and Rs. 10, but some were earning very little. One admirable labourer, L. Nagammal, No. 113, earned as much as Rs. 12. She attended absolutely regularly and did a large number of baskets per day—42 and 38. At Kodipatti, the wages for reeling were substantially less. Many women working every day earned only between Rs. 6 and Rs. 7. Rs. 8-1-0 was the maximum. At Papanasam, there are 323 women employed in the Steam Mills and 324 in the Water Mills. In the Steam Mills, the average wage as given in the statement filed by the company is Rs. 10-3-0 for women and Rs. 8-12-6 for men. It is Rs. 9-13-9 for women in the Water Mills. Women with regular attendance earned more. The highest wage drawn, as far as I could see, was Rs. 11-15-3. I have calculated that a woman doing 67 reels per day (this is not uncommon) and attending every day would be able to draw as much as Rs. 15-3-2. The month I selected was December having only 23 working days, and it is quite possible that the figures in other months

would be slightly higher. It will be seen that the wages for milks at Ambasamudram compared very favourably with those for milks at the smaller mills at Madurai and at Koolpatti.

On the whole, I find on this issue III (6), that the wages of the workers at Ambasamudram, when compared with the wages of the workers in the other mills in the locality, are not unreasonable.

*Issue III (5).—The needs of the workers and the desirability of maintaining a proper standard of living for them.*—Statement I filed by the management shows that the living expenses for a family of 4-6 persons at Ambasamudram vary from Rs. 29-6-6 in the month of November 1937 to Rs. 36-8-6 in March 1938. While I believe this statement is accurate, so far as it goes, it does not include various items of expenditure which are now, rightly I think, regarded as essential. For instance, it does not include coffee, rice, tobacco, buttermilk, air milk for children; nor is any provision made for extra expenditure for ceremonies or festivals, nor for medicine apart from those supplied free by the mills hospital. From this statement it would therefore appear that a working man is quite unable to support his family in decent conditions and that the family must be continually incurring debts. The witnesses examined at Papanasam corroborate this view. Even when a wife was earning it was claimed that the witnesses were all in debt and that, in some cases, the debt was steadily accumulating. The housing conditions too, even at Vikramasingapuram, were most disappointing. At Madurai, they were perfectly appalling; there, most of the workers were living like pigs in dark, damp, little draughts with utterly inadequate sanitary arrangements and none of the ordinary decencies at all. At Vikramasingapuram, where conditions are more rural, there is still horrible congestion in some of the lines in which the workers live. My conclusion, then, is that the wages at Papanasam are not adequate to provide a worker with the standard of life which is now-a-days accepted as desirable. This, however, is unfortunately true of the wages of most of the workers throughout India. I would find on this issue that, provided the employers can, in the light of the necessity for providing adequate remuneration for capital, afford to pay higher wages, they ought to do so. This aspect of the question will be examined later in connexion with issue VI.

*Issue IV.—Mr. Varadarajulu Nayudu has argued that Papanasam has great natural and mechanical advantages. The original cost of land acquisition, he contends, was low; the mill is situated in the middle of one of the largest and best cotton tracts in India; there are many spinning factories in the neighbourhood; there is a good market for finished yarn; there are easy export facilities; the cost of running is lower owing to the use of water power; there is less local taxation; the spinning department has been slumped; the climatic conditions are better. The managers have filed a statement 'G' which they have asked to be treated as confidential, showing the cost of production. It shows that the cost of production is higher at Ambasamudram. I have examined that statement and cannot find that it is inaccurate in any respect. It is explained that the sole advantage possessed by Ambasamudram is in the water power. Apart from that, the mills at Papanasam labour under many disabilities. They are five miles from the nearest railway station. They are not in the middle of a cotton area as alleged by Mr. Varadarajulu Nayudu, nor are they so close to spinning factories as Madurai. Coal, cotton, stores and machinery have to be carried by motors from the railway station to the mills. Out-going yarn requires similar brisage. Although the actual railway fare for coal from Tuticorin is less to Ambasamudram, the handling charges at the station and transport to the mill involve large additional expense. The taxes on motor vehicles assessed to a higher figure at Ambasamudram. So also does the cost of transport of cotton. I have no hesitation in finding that the Papanasam mills do not have any natural and mechanical advantages which render the cost of production less.*

*Issue V.—Even if the cost of production at Papanasam had been less I would hold that that does not of itself entitle the workers to higher wages than they would otherwise secure. If wages had of necessity to be raised in places where the cost of production was lower, there would again be a tendency to concentrate factories in cities.*

*Issue VI.—Can the Papanasam Mills afford to pay higher wages?*—There is a common impression that the Madurai Mills have always been making large profits and Mr. Varadarajulu Nayudu has made full use of this general belief in all his speeches to the workers. I have been permitted to study the recent income-tax returns of this Company. The popular impression is quite unfounded as can indeed be seen by an intelligent study of even the published balance sheets. The fact is that the mills in the past undoubtedly made very large profits. They also paid large dividends, but these dividends were not nearly so large as could have been paid on the profits then earned. A very large proportion of the profits had been put back in the business in the shape of increased

plant and reserve funds. In the last six years, with one exception, the real profits had been quite small, less than is usually accepted as adequate return for any industrial undertaking. In one year, there has actually been a substantial loss. Dividends have however been maintained since 1930 at the uniform figure of 10 per cent with the exception of one year, when only 5 per cent was distributed. But these dividends had in effect been paid out of the reserves accumulated in more prosperous times. As these reserves are still substantial, I would hold that the Papanamam Mills can afford to pay some higher wages, and I would also hold that in the light of my finding on issue III (d), it is very desirable that they should do so.

I should add that I have the permission of the management to make the position plain as I have done in this paragraph.

*Issue VII.*—I would hold that the ability of the mills to pay slightly higher wages is, in the absence of any depression in this branch of trade, likely to be of some duration.

*Issue VIII.*—As I am basing my view that higher wages should be paid entirely on the desirability of giving the workers a higher standard of living, I would hold that any increase in the Papanamam wages should be given to the class of workers at present drawing the lowest wages. These are the spinners, the doffers, the winders, the doblers, and the reeler. The other workers drawing low wages are few in number and have prospects of rising to more lucrative jobs. For the full-time spinners, the doffers, the winders and the doblers I would give an increase of Rs. 1 per manum. In the case of reeler, I think that their piecework should be increased by a quarter of a pie, i.e., 10 per cent. This will yield a little over a rupee per manum on the average. As the management point out, these increases should apply equally to Tutucorin, for the cost of living there must be as high as at Papanamam. The total cost of these increases will be Rs. 5,934 per annum, or Rs. 71,088 per annum. When one considers that the mill last April returned the cost in wages that had been made in 1933, that on 24th December 1937 they announced a bonus of Rs. 1 for night work to all their staff and increase in wages of Rs. 1 and Rs. 1-4-0 for the staff at Ambalamudram and Tutucorin, that in November 1937, they gave the attendance bonus for the first time to the spinners and doffers at Ambalamudram and in Tutucorin, and that, in part of the recent arrangements with Government, they have agreed to certain privilege leave and sick leave benefits, I feel confident that it would not be reasonable to award any higher increase in wages, especially in view of the fact that the shareholders have in recent years not been earning a reasonable return on their investment. The night bonus and the increases announced on 24th December 1937 involve an additional cost of Rs. 2,00,000 per annum. The leave and sick concessions recently given will cost the firm Rs. 1,42,000, and the increases by this award will mean Rs. 71,000, making a total increase of Rs. 4,12,000 on this year's wages bill. That is a very substantial amount and, in my mind, reveals the firm's willingness to do all that it can for the amelioration of the condition of their workers.

I would also add that some months ago the firm expressed its willingness to contribute a sum of Rs. 2,00,000 for Madurai and Rs. 1,50,000 for Ambalamudram, free of interest, for the provision of better houses for their work-people. The firm had never neglected this aspect of their responsibilities. In 1912, they built lines consisting of 176 houses from which they have been collecting a nominal monthly rent of one rupee per house. They have also advanced money free of interest to a Roman Catholic Mission for a workers' housing scheme. They maintain a canteen at each of their factories and they make very special and expensive provisions for the health and medical treatment of the workers. They also pay pensions to their old employees. And with one-sixth of the total maternity payments in the Presidency on their books, they have paid more than half the total maternity payments debursed in the Presidency. I trust that these statements will do something to remove the current impression that these employers are hard-hearted oppressors of the poor.

I would also add that, as a result of this arbitration, the management have agreed to recognize the labour union with Mr. Varadarajulu Nayudu as Secretary. This is on the condition that the volunteer system, as at present practised, is immediately abolished. It has recently been the practice for these volunteer officers to blow their whistles and create disturbances at every alleged grievance. Such action of course is quite contrary to true Trade Union principles and renders discipline and efficiency in the factory impossible.

Lastly, the Collector of Tirunelveli, who helped greatly during the enquiry at Papanamam, impressed by the fact that the workers are paying more than market prices for their supplies, has undertaken to encourage a Stores Co-operative Society. The management will help them too and this should mean that the wages will go further.

2. The wood has been classified according to the classes noted above. Intending tenders are required to inspect as well as to see the lots put up for sale, but they must accept the classification made in the depot as final.

3. Tenders should be superscribed "Tender for Sandalwood" and sent by sealed post to the Commissioner of Forests, Salem Circle, Salem (Madras Presidency), so as to reach him on or before 11 a.m. on Thursday, the 16th July 1938 at which date tenders will be opened.

4. Each tender should be accompanied by an earnest money deposit of Rs. 1,000 in the form of a bank draft on the Imperial Bank of India, Salem, in favour of the Commissioner of Forests, Salem, from any branch of the Imperial Bank of India. Currency notes should not be accepted. A receipted Madras Government treasury cheque for the amount will also be accepted.

5. Each tender must specify the rate at which each ton of 2,240 lb. of each lot is required delivered, both in figures and in words. No tender for part of a lot will be accepted.

6. Earnest money deposits of unsuccessful tenders will be returned immediately after the tenders are opened, and that of successful tenders will be retained against the first instalment of the purchase money.

7. Each tenderer if he tendered for any particular lot is required by the Commissioner of Forests, Salem Circle, Salem, to be furnished with a memo showing the total amount due from him. His share shall be 25 per cent of the money, less the earnest money deposit referred to in paragraph 4 above, into the Imperial Bank of India at Salem or Madras or the Reserve Bank of India, Madras, within seven days from the date of receipt of the memorandum, and another 25 per cent before the 15th August 1938, and the balance 50 per cent being paid on or before the 15th September 1938, or against delivery whichever is earlier. Should any successful tenderer fail to make the necessary remittances, by the due date, the money already remitted will have to be returned and the tenderer forfeited. Within three months, the tenderer, North Arcot district, will be at liberty to re-tend for the wood at question at the rate of the successful tenderer who shall be liable for any loss but shall not participate in any profit which may arise by the resale.

8. After 50 per cent of the entire sale value has been paid to the credit of the Forest Department, delivery of sandalwood shall be made to the successful tenderer, provided that until full payment has been made, a quantity of wood equivalent to 75 per cent of the full sale value shall remain accumulated but paid for.

The delivery will be by full lots at a time and so long as it will be demanded by purchase.

9. On the successful tenderer's presenting claims as proof that 50 per cent of the entire sale value has been paid, a proportion of the wood purchased will be weighed in his or his agent's presence and the quantity handed over to him in proportion to the claim. If, however, proof is produced that the entire sale value has been paid, the whole sandalwood purchased will be weighed and handed over. The successful tenderer must take delivery of and remove the whole of the wood sold to him on or before the 15th October 1938.

Should any excess arise the quantity paid for be found in the quantity purchased when weighing at the time of delivery, the excess will be paid for by the successful tenderer at the rate at which it was originally purchased, before offering for sale. If any excess tenderer has purchased more than 50 per cent of the lot and if there is any excess in one lot or class or deficit in the other, when weighing at the time of delivery as a particular lot, the value of the deficit tendered, calculated at the rate at which the same lot or class was sold will be adjusted towards the value of excess quantity tendered in the other lot or class as the case may be, and the balance, if any, still due from the successful tenderer will be refunded before permitting him to remove the quantity delivered during the day. If, however, he has not completely delivered within a deficit or excess of 50 per cent of the entire quantity at the time of tender, the value of the deficit quantity at the tendered rate will be retained in due course.

10. The successful tenderer, when despatching his goods to place delivery, must attach a receipt with a power-of-attorney duly stamped and bearing the signature of the person so despatched. A copy of the power-of-attorney must also be sent to the District Forest Officer, Salem District, Toppattur, North Arcot, by post with four specimen signatures of the agent. Failing these delivery may be refused pending verification, in which case the delay will count against the successful tenderer.

11. No further claims or specifications of sandalwood will be made by the Forest Department, nor will tenderers be allowed to claim any wood previous to weighing. The classification, weighing and measurement as determined by the Forest Department must be accepted.

12. After the wood has been weighed and handed over, if the successful tenderer fails to remove all the wood within the period allowed in clause 8, a demurrage will be charged at the rate of Rs. 5 per ton per day from the last date fixed for the delivery until the wood is finally removed.

13. No sandalwood shall be removed from the depot till it has been re-tended for by the agent of the Forest Department, who delivered the wood, and

have been obtained and till every piece of timberwood that can be obtained has been obtained with the district "Sole Harbour".

14. The successful tenderer shall bear the cost of taking delivery of the timberwood.

15. The tenderer should give at least seven days' notice of his intention to take delivery, to the District Forest Officer, Village West, Trappathar, supported by Bank certificate in token of payment. No delivery may be made on Sunday.

16. The wood, purchased by such successful tenderer shall be in the depot at his risk from the date of acceptance of tender until it is removed. The total quantity of wood offered for sale has, however, been insured against loss or damage by fire or lightning up to 10th October 1938, the last date of delivery, specified in paragraph 2 supra.

17. The Commissioner at Ponnai, Balas Circle, Balas, reserves the right to accept or to reject any tender without assigning any reason.

18. Further particulars may be had on application to the District Forest Officer, Village West division, Trappathar, North Arcot District.

#### LEGISLATIVE ASSEMBLY DEPARTMENT.

The following Bill of the Central Legislative Assembly has been introduced for the purpose of eliciting public opinion:—

A Bill further to amend the Code of Criminal Procedure, 1898.

WHEREAS it is expedient further to amend the Code of Criminal Procedure, 1898; It is hereby enacted as follows:—

Y of 1906.

1. This Act may be called the Code of Criminal Procedure (Amendment) Bill, 1906.

Y of 1906.

2. In section 202 of the Code of Criminal Procedure, 1898:—

(a) in subsection (2), before the words "such Magistrate" the words "the place where" shall be inserted, and after the words "such Magistrate" the words "ordinarily holds his Court" shall be added; and

(b) in subsection (3), after the words "On petition" the words "after having the accused at his request of the accused as directed" shall be inserted.

Amendment of  
Section 202,  
Act V of 1898.

## STATEMENT OF OBJECTIONS AND REASONS.

Section 357 of the Code of Criminal Procedure is intended to provide for the necessity of obtaining sanction of the court in order to prevent the Police from being enabled to complete the investigation. The Magistrate is required to give sanction for granting the request. The accused has a right in justice to place his case on the case before the Magistrate, before the reasons given by the Police are accepted by the Magistrate. Every person charged with an offence is presumed to be innocent till he is proved guilty. If the crime with which he is charged, hence the detention before sanction should be as short as possible, conveniently be made. The accused is entitled to be placed on his trial at the earliest moment, and should not unnecessarily be detained in custody. Hence it is in the interest of justice that the accused should have a right to be heard before he is remanded. There have been several cases during the recent years where the accused were not brought to the Court before the Magistrate for obtaining the request. The Magistrate was ordered twice to the place where the accused was detained. Without giving an opportunity to the accused to be heard, the Magistrate gave sanction of request after leaving the Police side of the case alone. This is not in accordance with the principles of justice. Hence the present amendment is necessary in order to make it obligatory on the part of the investigating authorities to produce the accused before the Magistrate in a calm and sober atmosphere of Court before any order of detention is passed.
